Extrusion Blow Molding

87%

our process

step one

Flake

We start with 100% post consumer flake made from meticulously sourced PET that has been diverted from oceans and landfills.

step two

Material Science

Verdeco's research team incorporates material science to achieve optimal IV.

step three

Pellet

Through R&D-inspired innovation, we develop customized flake solutions with consistent pellet geometry to meet our customers' end use needs.

step four

Product

Transformative impact begins as rPET pellets become new, sustainable products that provide the same quality as virgin PET.

Extrusion Blow Molding Using 100% rPET

Package processes can't stand in the way of your business's sustainability goals. With Ayr™ solutions by Verdeco, your extrusion blow molded packages can be created with high-quality, 100% rPET.

End -use products include:

- Milk Bottles
- Water Bottles
- Shampoo Bottles
- Large Juice Bottles
- Plastic Drums
- Jerry Cans
- Automotive Components

Your sustainable packaging solution is here. Let's build a more sustainable future — together.
